

*How Do I Prepare
Household Hazardous
Waste For Transport To
The Facility?*

- ☐ Check all containers and make sure the lids are on tight
- ☐ If the label is coming off, tape it back on
- ☐ If the container is leaking, put it in a larger container with an absorbent such as kitty litter
- ☐ Leave the product in the original container
- ☐ Use boxes lined with newspaper and/or trash bags
- ☐ Haul waste in the car trunk or truck bed only
- ☐ Do not mix products together

OF THE WORLD . . .

HELP US KEEP IT CLEAN

WHAT YOU SHOULD
KNOW

What Are Hazardous Materials, And Do I Have Any In My Home?

Look for these key words:

WARNING

CAUTION

DANGER

These products may have hazardous properties that are: **corrosive, reactive, toxic, flammable, or explosive.** Any product you no longer have a use for should be considered a waste and brought to the facility. Household Hazardous Waste is generally categorized into four main groups:

1. **Household Cleaners**
2. **Paints**
3. **Pest Control Products**
4. **Automotive Products**

If possible use the product according to label or recycle by giving it to someone else who can use the product!

DO BRING

Batteries	Brake Fluid
Cleaning Products	Photo Chemicals
Disinfectants	Insecticides
Herbicides	Gasoline
Kerosene	Motor Oil
