We are writing in support of the Expedition Wind CUP application that is before the Marion County Planing Commission. We are land owners in the proposed foot print and have leased our land for this project. We live in Hillsboro and were born and raised in Marion County. We know there is opposition to this project from those who live in and near the footprint. We also know there are also those who live in the foot print who support this project. We believe that we need to be moving toward a renewable energy future and am glad that we in Marion County can be part of that movement. We hope the Planning Commission will support this project.

Thank you for your service to Marion County by serving on the Planning Commission.

Sincerely,

Keith and Judy Harder
