Blake,

We received notification of your next step in the Doyle North wind project today and wanted to let you know we are excited to see this project move forward! In our opinion this would be an excellent step for our county, our local towns, and local landowners in their efforts to keep our county viable for the next several decades. In short, we are fully behind Expedition Wind in seeing this project to fruition.

Thanks for your efforts in making Marion County a thriving place to live!

Sincerely,

Randy and Kelli Savage
