

Below are the specs for the proposed up lighting that will be used on the sign.  
We will take into account the highway traffic and ensure that all glare and any safety issues are dealt with and resolved.

Features Specifications: LED Floodlight Gym, Billboards, Buildings, Parking areas.

Features:

- 1) IP65
- 2) Life Span: 10 years
- 3) Ra > 80

Packing: one pc per carton

LED Flood Light

Feature:

High-Purity Aluminium Reflector Lamp Body and Heat Sink

High intensity Toughened Glass Cover

Single High Power LED Light source

High Efficiency LED drive

Flood Light is an artificial light providing even illumination across a wide area.

The class of lamp itself

The types associated with Stage productions

The types used at sporting venues

Factory, gym, pier, billboards, buildings, parking areas.

Model ZTX225LTG

LED Power: 10W~30W

Working Voltage AC(85V/265V) frequency

(50Hz/60Hz) DC(12V 24V)

Power Efficiency > 0.9

Power Factor: > 0.98

LED Lighting Efficiency 100Lm/W

Luminaire Efficiency > 90%

Color Rendering Index Ra > 80

Correlated Color Temperature 2700K~7000K

Lighting Color White Red Green Amber Blue

Working Condition -40°C~ 55°C

Protection Grade IP65

Life Span > 50000h

Weight 2.30Kgs

Size 225mm×185mm×160mm
