To Whom it may concern,

In regards to Case No. PC-16-03 permit for salvage yard.

I live on 1st St in Lincolnville. The street has become a mess from mud and rocks.

My concerns are the hours of business that has been happening late in the evening and occasionally near or after midnight. What salvage yard needs to be operated that late.

Also I have seen in other towns privacy fences that are 8 to 10 ft. tall, not the trailers and junk that is currently being used.

We are all on Well water and I would like to know what environmental safety laws will be followed.

I can only hope that you do not consider that area for a salvage yard and that Mr. Shields is made to clean up the current mess.

Thank you for listening.
