To the zoning Committee,

Just a note as to why we are requesting your consideration in allowing us to change the 14x56 mobil home which has a metal roof and sides to a 16x80 mobil home with shingled roof and siding.

We do agree with the zoning laws which strive to keep the countryside clean and presentable

However due to the change in hired personnel we need a bigger home. Therefore we feel moving the above mentioned newer home in would be more presentable than building a room onto the present old home. We feel building a room onto the present structure would make it look tacky, but we have no other option if this request is denied, because of the cost.

We sincerely believe our request is legitimate.

Yours Respectably  
~~Vernon J. O'Leary~~
