

- \* The location of the greenhouse will be about 50' + west of all other buildings on the yard.
- \* A lot of parking will not be needed as we will not advertise retail sales or have regular business hours. We do have ample parking in the middle of the house, barn, and sheds for the occasional passerby.
- \* Most people may enter from the driveway off 190<sup>th</sup>. A few people may enter from the drive off Limestone Rd. People may exit out of either drive.
- \* The use of a retention or detention pond will not be necessary at this time given the very small size of the building. What water that does drain off will drain into our alfalfa field to the south of the building.
- \* No business signs will be posted. This greenhouse's main purpose is wholesale. Regular public traffic will be discouraged. The purpose for applying for this conditional use permit is to be able to legally sell to family and friends directly out of the greenhouse.
