

Planning Commission Staff Report

Applicant

Jonas E. Giesbrecht
1820 Holly
Hillsboro, KS 67063

Application

Application number ZP03.094. Applicant is requesting to rezone approximately twenty-eight (28) acres from "A" Agriculture Zone District to "RR" Rural Residential Zone District.

Project Description

Mr. Giesbrecht owns more than eighty (80) acres in the southwest and southeast quarters of Section 4, Township 20 South, Range 2 East. The residence is located one half of a mile south of the City of Hillsboro.

This home-site contains one residence of approximately 1900 sq. ft., one steel shed of 50' x 75,' one pole shed of 30' x 50,' one swine barn of 34' x 120,' one swine barn of 24' x 80,' four grain bins and one small wood barn. This property is served by rural water. The private wastewater system that serves this property is not compliant.

Planning Issues

The Public Hearing Notice and Adjacent Property Owner Notification was completed in accordance with the Marion County Zoning Regulations and Kansas State Statutes. No public comments have been received as of January 8, 2004.

The purpose of the "RR" Rural Residential Zone District is to provide a transition zone between agricultural lands and low-density rural residential development. Article 3 of the Marion County Zoning Regulations states that "RR" is suitable in rural locations where adequate public roads and public services are available, but is not suitable in all rural locations. It is inappropriate in areas predominately agricultural in character where public services are adequate only to meet the needs of farm residences and farm operations.

Factors to be considered in a change of zoning classification:

- 1) Whether the change in classification would be consistent with the intent and purpose of the Marion County Zoning Regulations.
- 2) The character and condition of the surrounding neighborhood and its effect on the proposed change.

- 3) Whether the proposed amendment is made necessary because of changed or changing conditions in the area affected, and, if so, the nature of such changed or changing conditions.
- 4) The current zoning and uses of nearby properties, and the effect on existing nearby land uses upon such a change in classification.
- 5) Whether every use that would be permitted on the property as reclassified would be compatible with the uses permitted on other property in the immediate vicinity.
- 6) The suitability of the applicant's property for the uses to which it has been restricted.
- 7) The length of time the subject property has remained vacant or undeveloped as zoned; provided, the use of land for agricultural purposes shall be considered as viable use of the land and not be considered as allowing the land to be vacant or undeveloped.
- 8) Whether adequate sewer and water facilities, and all other needed public services including transportation, exist or can be provided to serve the uses that would be permitted on the property if it were reclassified.
- 9) The general amount of vacant land that currently has the same zoning classification proposed for the subject property, particularly in the vicinity of the subject property, and any special circumstances that make a substantial part of such vacant land available or not available for development.
- 10) The recommendations of permanent or professional staff.
- 11) Whether the proposed amendment would be in conformance to and further enhance the implementation of the Comprehensive Plan.
- 12) Whether the relative gain to the public health, safety, and general welfare outweighs the hardship imposed upon the applicant by not upgrading the value of the property by such a reclassification.
- 13) Such other factors as may be relevant from the facts and evidence presented in the application.

Section 4 of Liberty Township does not contain a "RR" Rural Residential Zone District at present time.

Property is located on a solid gravel road

Property is within one mile of the City of Hillsboro.

Staff Recommendation

Approve a recommendation to rezone eleven and two tenths (11.2) acres from "A" Agricultural Zone District to a "RR" Rural Residential Zone District. Recommend private wastewater lagoon be properly fenced. (REASON: Property is located in transition area between Rural and Urban Use. Rezone acreage requested is greater than double the minimum "RR" requirement allowing the parcel to be subdivided for residential development.)
