To the Marion county commission.

We own the property at lot 18 at # 3 Jerome our driveway is right behind PT of lot 26 at 62 lakeside. By moving the setback in the back from 20 feet to 1 foot in the rear will make it impossible to back out or back in our driveway. The street is only 14 feet wide. We do our best to keep off the grass on Mr. Reid's side of the street but just backing out of the drive the back of the cars and trucks hang over on his side and backing the boats and jet skis in now takes two or three times just to get in the driveway. By giving this variance will let them build right next to the street which may result in us backing into Mr. Reid's building. Which would not be good at all. We will be attending the hearing July 22.

Thank you very much
July 6th 2004
Philip I Shapel
