

Planning Commission Staff Report

Applicant

Brad Putter / Charles Kannady
111 N. Lincoln
Marion, KS 66861

14 to 19 acres

Application

Application number ZP04.034. Applicant is requesting to **rezone fifteen (15) acres** from an "A" Agriculture Zone District to a "RR" Rural Residential Zone District.

Project Description

Mr. Kannady owns eighty (80) acres in the south half of the southwest quarter of Section 2, Township 20 South, Range 3 East. This parcel is located four miles north of unincorporated Aulne.

This parcel does not contain any structures at present time. Rezone request is for unfenced grassland.

Planning Issues

The Public Hearing Notice and Adjacent Property Owner Notification was completed in accordance with the Marion County Zoning Regulations and Kansas State Statutes. No public comments have been received as of May 14, 2004.

The purpose of the "RR" Rural Residential Zone District is to provide a transition zone between agricultural lands and low-density rural residential development. Article 3 of the Marion County Zoning Regulations states that "RR" is suitable in rural locations where adequate public roads and public services are available, but is not suitable in all rural locations. It is inappropriate in areas predominately agricultural in character where public services are adequate only to meet the needs of farm residences and farm operations.

Factors to be considered in a change of zoning classification:

- 1) Whether the change in classification would be consistent with the intent and purpose of the Marion County Zoning Regulations.
- 2) The character and condition of the surrounding neighborhood and its effect on the proposed change.
- 3) Whether the proposed amendment is made necessary because of changed or changing conditions in the area affected, and, if so, the nature of such changed or changing conditions.

- 4) The current zoning and uses of nearby properties, and the effect on existing nearby land uses upon such a change in classification.
- 5) Whether every use that would be permitted on the property as reclassified would be compatible with the uses permitted on other property in the immediate vicinity.
- 6) The suitability of the applicant's property for the uses to which it has been restricted.
- 7) The length of time the subject property has remained vacant or undeveloped as zoned; provided, the use of land for agricultural purposes shall be considered as viable use of the land and not be considered as allowing the land to be vacant or undeveloped.
- 8) Whether adequate sewer and water facilities, and all other needed public services including transportation, exist or can be provided to serve the uses that would be permitted on the property if it were reclassified.
- 9) The general amount of vacant land that currently has the same zoning classification proposed for the subject property, particularly in the vicinity of the subject property, and any special circumstances that make a substantial part of such vacant land available or not available for development.
- 10) The recommendations of permanent or professional staff.
- 11) Whether the proposed amendment would be in conformance to and further enhance the implementation of the Comprehensive Plan.
- 12) Whether the relative gain to the public health, safety, and general welfare outweighs the hardship imposed upon the applicant by not upgrading the value of the property by such a reclassification.
- 13) Such other factors as may be relevant from the facts and evidence presented in the application.

Property is located on a dirt road.

Section 2 of Wilson Township contains **three** "RR" Rural Residential Zone Districts at present time.

Staff Recommendation

Oppose a recommendation to rezone parcel to a "RR" Rural Residential Zone District. (REASON: Application does not meet criteria established in **section 3-101** of zoning regulations. Application does not meet the following precedents established for approval: parcel does **not contain an existing home site** or other secondary structure, parcel does not have **rural water access**, parcel is adjacent to a **dirt road**.)

Public Access
ask Public Services
Road Rte
Rural Water
existing home site

No rural water
Lagoon
1/2 mile to gravel
Made in "old" approx 1920s home
1/2 story
walk out basement
