TRANSCANADA KEYSTONE PIPELINE LE

DEVELOPMENT PLAN

TEMPORARY PIPE YARD T 18 S R 3 E Section 13.

- No existing buildings. There will be no buildings and/or structures on this site.
- 2. This site will be used as a pipe storage yard only. Equipment for loading and unloading pipe will be on site with only a few contractor trucks.
- As depicted on pipe yard layout only dirt berms will be shaped to hold pipe sections (Attachment B).
- The pipe yard site will not be accessible by the general public. A temporary access road to the site to be determined.
- 5. There will be no utility services on site.
- Drainage controls and/or erosion-sediment controls can be found in the attached Construction Mitigation and Reclamation Plan (CMRP: 4.5, Detail 1 & 2).
- 7. No signage will be constructed as this is a temporary site.
- 8. Temporary Pipe Yard will only be used during daylight hours.

STATEMENT OF INTENT

This forty acre tract of land will be leased on a temporary basis (18 months) from a private landowner to be used as a pipe storage yard. Approximately 40 miles of pipe will be stored on sight as depicted on Attachment A. Pipe storage yard will be in operation before and during construction and will not be open to use by general public.

To ensure clean use of the property and surrounding public roads contractor will lay down geo-tech fabric and place 6-8" of gravel on top of fabric. These temporary gravel roads will be used for truck traffic on the temporary pipe storage yard and will reduce tracking mud onto public roads.

A temporary entrance/exit will be installed to county required spedifications allowing proper flow in bar ditch and sloping easy entrance/exit purposes.

Upon completion of pipeline construction this temporary pipe yard will be cleaned up (rock, geo-tech fabric & culvert/temp driveway), removing all rock and returning the property back to the way it was prior to construction.
