Marion, KS 66861

Dear Ms. Richards:

My wife and I received your notice of Public Hearing regarding the construction and operation of a wind energy facility in our immediate area. We were quite overcome by the news. Not that we had not heard about it, but that we had already missed out on some of the meetings, specifically those concerning County Commissioners' approvals.

We realize that we are at a great disadvantage in that we are limited by time constrains in our effort to marshal forces to combat this misguided venture. For that reason, we respectfully request the Planning Commission / Board of Appeals to postpone its action of rendering a decision on this matter. We feel that this is an important matter not only to us and our lives but to the people of the area and indeed the population of Marion County.

The decision to defend our rights in the face of such odds is a frightening undertaking, of which we know little of what to expect. However, I am sure that we have friends and neighbors who are like minded regarding this issue, but see no hope in pursuing justice in the face of such odds. Please, consider our plight. Thank you for your service to our community.

Sincerely,

Nick and Lorrie Peter
