I. Purpose and Scope

A. Purpose

1. The purpose of ESF 9 is to provide search and rescue services in support of emergency operations in Marion County.

B. Scope

1. ESF 9 coordinates actions to provide search and rescue to support incident management and facilitate the response process. Specifically, ESF 9 supports local governments by supporting:
 - a. Searches and rescues rural areas for lost, missing, or endangered persons;
 - b. Waterborne searches and rescues in lakes, ponds, or rivers;
 - c. Searching for downed or missing aircraft; and
 - d. Searches as a result of a structural collapse.

II. Concept of Operations

A. General

1. ESF 9 is organized consistent with the Marion County EOC, the requirements of the National Response Framework, the National Incident Management System, and the Incident Command System. This structure and system supports incident assessment, planning, procurement, deployment, and coordination and support operations to Marion County through the Marion County Emergency Response Team, Area Operations and Regional Incident Management Teams (IMTs) to provide a timely and appropriate response to an emergency or situation.
2. Procedures, protocols and plans for disaster response activities are developed to govern staff operations at the Marion County EOC and in the field. These are in the form of Emergency Operations Plan (i.e., Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines, which describe ESF 9 capabilities. Periodic training and exercises are also conducted to enhance effectiveness.
3. In a large event requiring local or State mutual aid assistance, ESF 9 will work with its support agency counterparts to seek, procure, plan, coordinate and direct the use of required assets. The county does not have the ability to maintain operations for >72 hours. The county will use mutual aid (LEAD, FORCE) and regional search and rescue teams to maintain operations for >72 hours.

Marion County does have the ability to do water rescue. However, mutual aid (KDWP) will be requested for search and rescue operations outside the size and scope of Marion County's capabilities.

Marion County has limited resources for high angle resources and would rely on mutual aid or regional SAR support.

Marion County may request local pilots for assistance in search and rescue operations. If local assistance is not available mutual aid will be requested from KDEM, KHP and the Civil Air Patrol.

The Marion County Sheriff Office, local Law Enforcement and the fire departments will

coordinate with each other to complete search and rescue operations inland/wilderness areas.

Law enforcement will be in charge of missing person's searches and will coordinate with agencies for personnel and resources to support SAR.

Law Enforcement from the appropriate jurisdiction will be responsible for SAR for criminal activities.

Marion County has no capacity to work with a terrorist incident and will request state and federal assistance. The county may provide some secondary support for SAR activities.

The coordinating agency along with fire departments, LE and designated weather spotters will be responsible for conducting SAR for weather related disasters.

4. When an event is focused in scope to a specific type or response mode, technical and subject matter expertise may be provided by an appropriate person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.
5. Recovering Victims

Victims with no injuries will be processed and released.

Injured victims will be transported to designated medical facility, processed, treated and released as available. EMS will be responsible for initial triage at the scene. MERGE will be used for medical triage and transport.

Fatality victims will be processed, the county coroner will decide to release the body to mortuary service or keep the victim for autopsy. The state has a mass fatality incident plan and resources that may be requested to support the event.

Partial remains will be processed by the coroner's office and sent for analysis to a local forensics lab for identification.

EMS transports injured victims, and will be responsible for coordination and mutual aid agreements with MERGE and SWERVE.

For events <10 fatalities or partial remains, EMS and Mortuary services will be responsible for the transportation of victims. For larger incidents that actions will be guided by the state mass fatality plan, and mutual aid will be requested.

6. Vulnerable needs

The county will conduct SAR operations to the max extent feasible with regard to vulnerable populations. When local resources are overwhelmed, the county will contact the State ADA Coordinator. The following facilities (Care Facilities, Assisted Living Centers, Independent Living Facilities, Schools, Hospitals, and Day Care Facilities) or locations are required to maintain an EOP, to protect their citizens. The county will utilize

facility staff to evacuate patients, clients, students, and visitors in accordance with the facility plan and in coordination with the IC or EOC.

B. Direction and Control

1. The ESF 9 Coordinating Agency is Marion County Sheriff which is appointed by the Marion County Emergency Management, in coordination with local planning partners. The staff serving as ESF 9 Coordinator is appointed by and located in the Marion County Sheriff. When ESF 9 support is necessary, the ESF 9 Coordinator coordinates all aspects of ESF 9.
2. ESF 9 complies with the National Response Framework, and the National Incident Management System (NIMS). The NIMS guides the direction and control system adopted by the Marion County Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County.
3. The ESF 9 may operate at two levels: 1) Marion County EOC; and 2) Field operations
4. During emergency activations, all management decisions regarding search and rescue for Marion County are made at the Marion County EOC by the ESF 9 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Sections at the Marion County EOC assist the incident commander in carrying out the overall mission.
5. In accordance with a mission assignment from ESF 9, each primary and/or support organization assisting ESF 9 will retain administrative control over its own resources and personnel, but will be under the operational control of ESF 9. Delegation of mission operational control may be delegated to the field by the Marion County EOC.

C. Organization

1. County
 - a. During an activation of the Marion County EOC, primary and support agency staff is integrated with the Marion County Sheriff staff to provide support.
 - b. During an emergency or disaster event, the Marion County EOC Operations Section Chief will coordinate resource support with the Emergency Services Branch Chief.
 - c. During the response phase, ESF 9 will evaluate and analyze information regarding search and rescue requests. Also, ESF 9 will develop and update assessments of the search and rescue status in the impact area and do contingency planning to meet anticipate demands and needs.
 - d. The Marion County Sheriff will develop and maintain ESF 9 and accompanying Appendices, Annexes and Standard Operating Guidelines that govern response actions related to emergencies. However support agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan. All such

documents will be in compliance with the National Response Framework, The National Incident Management System, the Incident Command System and the Marion County Emergency Operations Plan.

2. State of Kansas

- a. During an activation of the State of Kansas EOC, the Adjutant General's Office, Kansas Division of Emergency Management (KDEM) is the designated lead agency for search and rescue and will provide a liaison to facilitate requests for State search and rescue resources to local Emergency Operations Centers.
- b. During an emergency or disaster event, the primary and support agencies of ESF 9 at the State of Kansas EOC will report to the Emergency Services Branch Chief who reports to the Response Section Chief under the overall direction of the SEOC manager.
- c. The Adjutant General's Office, Kansas Division of Emergency Management (KDEM) develops and maintains the overall ESF 9 Emergency Operations Plan and accompanying Appendices, annexes and Standard Operating Guidelines that govern response actions related to emergencies. However support agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan. All such documents will be in compliance with the National Response Framework, the National Incident Management System, the Incident Command System and the Marion County Emergency Operations Plan.

D. Alerts and Notifications

1. The Marion County Sheriff and/or Marion County Emergency Management will notify the County Warning Point (Marion County Public Safety Warning Point (PSAP)) when information comes to their attention indicating that an emergency or disaster situation is developing.
2. The County Warning Point (Marion County Public Safety Warning Point (PSAP)), will notify the Supervisor and/or ESF Coordinator for ESF 9 when Marion County has been threatened or impacted by an emergency or disaster event as provided in the County Warning Point procedure.
3. ESF 9 will be activated or placed on standby upon notification by the Marion County EOC. The representatives or designees of the coordinating agency will manage the emergency activities of ESF 9. If additional support is required, the ESF 9 coordinating and primary agencies may jointly manage ESF 9 activities.
4. Upon instructions to activate or placement of ESF 9 on standby, Marion County Sheriff will implement procedures to notify all ESF 9 planning team members and, if necessary, mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

E. Actions

1. Actions carried out by ESF 9 are grouped into phases of emergency management: Preparedness, Response, Recovery and Mitigation. Each phase requires specific skills and knowledge to accomplish the tasks and requires significant cooperation and collaboration between all ESF 9 agencies and the intended recipients of service.
